

ALWAYS (*Garage version*)
(Ad Vanderveen)

Intro:

G/A Riff

Sometimes I'm feeling sorry sometimes it feels just right

D Em G D

There may not be a perfect plan but then again there might

D Em G D

A pain I'll carry with me a feeling there that stays

Bm F#m G Gm

A ring around eternity for love that lives always

D Em G D

Always, love that lives always

G A Bm G

Always, leading through my days

A Bm G

Now and forever may run out of time and space

G A F# Bm

But love will live always

G D

Sometimes I'm feeling guilty for all I leave behind

I can't believe the restless dreams that run across my mind

And though I sat down with the truth and looked it in the face

I can't believe it's good and gone a love that lived always

Chorus

If just once in a lifetime you gotta get it right

There may not be a second chance and then again there might

But should there be another one by some amazing grace

I'd have to do the same again for love that lives always

Chorus
