

UP IN THE AIR
(Ad Vanderveen)

Woke up this morning got into a fight
F G F G
Stole the darkness out of the night
F G F G
Mighty mean fight and a head on clash
F G F G
Love in full flight ended up in a crash
F G F G

Chorus:

Now it's up in the air, up in the air
F G F G
Flying high on the wings of a prayer
F G F G
Up in the air and out of our hands
F G F G
And there ain't no telling where it lands
F G F G

One little talk one short kiss
Who'd ever thought it would come to this
A thing growing bigger than you and I know
Then it explodes in a mighty hard blow

Chorus

What goes up must come down
What goes around comes around
Everybody's talking in this little town
Saying our love was sorrow bound

But it's up in the air....

Goodbye to the promise bye to the trust
G Bflat
Bye to the love biting the dust
F G
Bye to the romance cry if you must
C Bflat
The end of your world but you always adjust
F G F
Always adjust...
G F G
